

CURRICULUM VITAE

Name: Dr. Francesco Boscia
Date of birth: 26 June 1961
Nationality: Italian

EDUCATION

Medical: Facoltà di Medicina e Chirurgia, Università degli Studi - Bari
Entry: November 1979 Graduation: July 1986
Teaching Hospital: Ospedale Consorziale Policlinico-Bari

Preregistration internship: Anatomy, Internal Medicine, Obstetrics, Ophthalmology

Awards:

- Degree in Medicine and Surgery with score of 110/110 cum (with Honours)
- Diploma of Specialist in Ophthalmology with score of 50/50 (with Honours)
- *Achievement Award* by the American Academy of Ophthalmology (2004)
- *Honor Award* by the American Society of Retinal Specialists (2006)

POSTGRADUATE CAREER

Qualifications:

- Jul 1986, Degree in Medicine and Surgery
- Nov 1986, Diploma of Qualification to practice Surgery
- Dec 1988, FMGEMS Certificate
- Nov 1989, FCOphth part I
- Oct 1991, Diploma of Specialist in Ophthalmology
- 1999, Fellowship in Vitreoretinal Surgery - King's College Hospital-Moorfields Eye Hospital
- Dec 2010, Associate Professor in Ophthalmology

Membership of professional bodies:

- Ordine dei Medici della Provincia di Bari (20/01/1987 - n. 0000008233)
- GMC UK - full registration n° 3421550
- SOI - Italian Ophthalmological Society
- APIMO - professional body of the Italian Ophthalmologists
- SOM - Southern Italy Ophthalmic Society

- SIOO - Italian Ocular Oncological Society
- ARVO - Association for Research in Vision and Ophthalmology –
Program Committee Member
- AAO - American Academy of Ophthalmology
- ASCRS – American Society of Cataract and Refractive surgery
- ASRS – American Society of Retina Specialists
- EVRS – European Vitreo-Retinal Society
- EURETINA
- MACULA SOCIETY

APPOINTMENTS

PRESENT:

- Aug 2013 – Present – Associate Professor and Chair at the
Ophthalmology Institute of the University of Sassari, Italy

PREVIOUS:

- Jan 1987 - Dec 1987 - Intern the Ophthalmology Institute of the
University of Bari
- Jul - Sep 1988 - Visitor at the Ophthalmic Pathology Laboratory of
the University of Illinois at Chicago attached to Professor Tso
- Jul-Aug 1989 - Clinical attachment to the Ophthalmic Department,
King's College Hospital, London
- Sep 1989, Au 1991, Aug 1992, Aug 1993, Oct 1994, Jul 1995 -
Locum SHO in Ophthalmology at King's College Hospital
- Jan 1991 - Oct 1992 - Staff position as "Assistente Medico" in the
General Casualty Department at the "Ospedale Generale
Conсорziale-Policlinico", Bari, Italy

- March 1999 - December 1999 - Fellow in Vitreoretinal Surgery at the Department of Ophthalmology King's College Hospital and Moorfields Eye Hospital
- Nov 1992 – Jul 2013 - "I Dirigente Medico" in the Ophthalmology Institute of the University of Bari - Ospedale Generale Consorziabile Policlinico, Bari, Italy

Co-investigator in the multicentric studies:

- Pharmacological Therapy for Macular Degeneration Study Group [Pharmacological Therapy for Macular Degeneration Study Group. Interferon alfa-2a is ineffective for patients with choroidal neovascularization secondary to age-related macular degeneration. Arch Ophthalmol 1997;115:865-872]
- An open-label, multicentre, efficacy and safety study of the treatment of predominantly classic subfoveal choroidal neovascularization, secondary to age related macular degeneration using photodynamic therapy with Verteporfin (VIT: Verteporfin in Italy).
- MICRo Economics of MACular Disease (MICMAC)
- Quality Of Vision Index (QoVI): multicentric observational study for the evaluation of quality of vision through correlation between functional tests and psychometric test VFQ-25
- Double blind, randomized, multicenter, placebo-controlled, parallel-group design clinical trial of the efficacy and tolerability of cloricromene hydrochloride capsules 100 mg tid in diabetic patients with mild to moderate non-proliferative retinopathy
- A Six-Month, Phase 3, Multicenter, Masked, Randomized, Sham-Controlled Trial (with Six-Month Open-Label Extension) to Assess the Safety and Efficacy of 700 µg and 350 µg Dexamethasone Posterior Segment Drug Delivery System (DEX

PS DDS) Applicator System in the Treatment of Patients with Macular Edema Following Central Retinal Vein Occlusion or Branch Retinal Vein Occlusion (PROTOCOL NUMBER: 206207-008-00).

- A randomized, double-masked, active-controlled, multicenter study comparing the efficacy and safety of ranizumab (0.3 mg and 0.5 mg) administered as two dosing regimens in patients with subfoveal choroidal neovascularisation secondary to age related macular degeneration.
- A 102-week, open-label, multicenter trial to investigate the efficacy of Macugen for the preservation of visual function in subjects with neovascular age-related macular degeneration (AMD) and to assess the benefit of treating early choroidal neovascularization (CNV).
- A randomized, double-masked, multicenter, laser-controlled Phase III study assessing the efficacy and safety of ranibizumab (intravitreal injections) as adjunctive and mono-therapy in patients with visual impairment due to diabetic macular edema

Sponsor: Novartis

- A randomized, double-masked, multicenter, laser-controlled Phase III study assessing the efficacy and safety of ranibizumab (intravitreal injections) as adjunctive and mono-therapy in patients with visual impairment due to diabetic macular edema

Sponsor: Novartis

Principal investigator in the multicentric studies:

- Multicentric, open, randomized trial for evaluation of effectiveness and safety of photodynamic therapy with verteporfin (Visudyne®) alone or associated with intravitreal triamcinolone injection (Kenacort®) in patients with subfoveal

choroidal neovascularization secondary to age-related macular degeneration.

Sponsor: Novartis AG

- Photodynamic therapy for CNV in Italy Reading Center

Sponsor: Novartis AG

- Studio randomizzato di fase III, in doppio cieco, a controllo attivo, di efficacia, sicurezza e tollerabilità di dosi ripetute di VEGF Trap-Eye intravitreale in soggetti affetti da degenerazione maculare senile (AMD) neovascolare – VEGF Trap-Eye

Sponsor: Bayer

- Studio randomizzato, in doppio cieco, controllato con trattamento fittizio, di fase III, inteso a valutare l'efficacia, la sicurezza e la tollerabilità della somministrazione intravitreale ripetuta di VEGF Trap-eye in soggetti affetti da edema maculare secondario a occlusione della vena retinica centrale (Center retinal vein occlusion, CRVO)

Sponsor: Bayer

- A 12 month, phase III, randomized, double-masked, multicenter, active-controlled study to evaluate the efficacy of two different dosing regimens of 0,5 mg ranibizumab vs. verteporfin PDT in patients with visual impairment due to choroidal neovascularization secondary to pathologic myopia

Sponsor: Novartis

- A 2 year randomizer, single-masked, multicenter, controlled phase IIIb trial assenssing the efficacy and safety of v0,5 mg ranibizumab in two “treat and extend” treatment algorithms vs. 0,5 mg ranibizumab as needed in patients with macular edema and visual impairment secondary to diabetes mellitus

Sponsor: Novartis

-

Member of the Editorial Board of the International Journal of Retina and Vitreous

Reviewer for:

- *Ophthalmology*
- *Cornea*
- *Experimental Eye Research*
- *Journal of Cataract and Refractive Surgery*
